

Galesburg Speedway – Burg stocks 2012

- Safety requirement for 2012—A full fire suit is required – either a full one piece suit or a two piece suit with pants and jacket. ***NO one will be permitted to run with a fire suit top only!*** We strongly recommend that all drivers have a high quality properly rated racing helmet, wear racing gloves & racing shoes, a neck collar or other style of head & neck restraint, as well as any additional safety equipment.
- No antifreeze period!
- Camber rule – Minimum camber will be allowed – ½” of camber will be allowed.
- No spring rubbers or spacers of any kind. No altering or playing games with your struts! Your cars need to bounce up and down freely when going thru tech.
- Rear steer (wheelbase) Rules are as follows: The wheelbase will remain the same measurement on the left and right side. There will be ½” tolerance.
- All metal bumpers must be strapped or chained.
- ***Mufflers are Mandatory.***
- You are allowed to run up to 1 ¾” dia. X .090 bars down to the rear struts off the back of the main cage as well as between the rear struts. You are allowed to run up to a 1 ¾” dia. Bar between the front strut towers, You can run a 1 ¾” bar between the front frame horns.
- Any 4 cylinder front wheel drive cars, except convertibles, No trucks, No two seat coupes, No turbo or super charged engines, no multi carburetors, no rotary engines, no mid or rear engine cars, and no Cosworth engines. Factory stock fuel injection only.
- Complete stock body – Front to back, stock frame, stock suspension, stock front and rear firewalls-**STOCK,STOCK,STOCK!** All trunks & hoods will have working hinges, Hoods and trunks need to be secured with quick release latches or straps.
- All glass except for the windshield must be removed. Lexan front window is okay.
- **NO** lead, concrete or any type of ballast may be added to the cars.

- All insulation, carpet, and fabric must be removed. All headlights, taillights, loose chrome, etc. must be removed.
- Stock transmission for that make and model of car. An external cooler is permitted.
- Battery may be relocated, strapped securely, and covered.
- Stock exhaust system with muffler, Max exhaust size is 2" If it is too loud, it will not run!
- Gas tank—If the stock gas tank is located ahead of the rear axle, it may remain in place. Any tank behind the rear axle must be replaced & relocated in the trunk. Use a small 8 gallon fuel cell or boat gas tank. Fuel cell or boat tank will be mounted in the farthest forward area of the trunk, securely fastened with at least 4 straps. Rear firewall must be enclosed if the gas tank is placed in the trunk.
- Tires and wheels—Stock wheels for that make & model of car are fine. Safety wheels can be used, but you are not allowed to increase your tread width, buy using big offset wheels. Maximum size of any wheel will be 16 x 7 wide. Oversized 1" lug nuts are highly recommended. All wheel weights must be removed.
- No low profile, trick or exotic tires allowed. NO Z-Rated tires of any kind! Radial tires only! You may run 14, 15 or 16" tire in a 75,70,65, or 60 series maximum 225.
- Roll cage or roll bar is highly recommended, with the rollover bar being just behind the driver's seat. A full 4 post cage with a full set of door bars is highly recommended. No removing any of the metal in the door panels, unless you are installing a roll cage. Both doors are to be welded or chained shut. A racing seat is highly recommended and mounted to the roll cage.
- Driver's side window net is required. A set of shoulder and seat belts are mandatory. Mounted in a safe and proper manner.
- Any rebuilding of the frame horns, strut towers, or bumper mounts can only be repaired with the use of flat stock that is 1/8" thick or less.
